KEY FINDINGS AND RECOMMENDATIONS

1. Lower-tier markets underdeliver

Bottom 3 markets generate 51% of top-3 average.

→ Replicate Canada's playbook

\$945 MRR uplift potential

2. Engagement gap between tiers

Free skip rate: 20.0% vs Premium 10.6%. Paying users are 2x more engaged.

→ Surface Premium-like curation to engaged Free users

Skip rate doubles for Free users

3. Engagement scales sharply with tier

Premium: 4.02 hrs/user vs Free: 1.68 hrs/user. 2.4× engagement gap noted.

→ Trigger upgrade prompts when Free users near Premium-level usage

Heavy Free listeners = conversion-ready

4. Fraud users dominate engagement metrics

50% of users flagged, but generating 70% of sessions is 1.4× over-index.

→ Exclude fraud cluster from headline KPI reporting

Real engagement and ARPU is likely 30% lower than reported

5. Algorithm underperforms organic discovery

Recommended tracks (52% of sessions) skip at 13.2%. Worse than organic 12.7%.

→ Audit and retrain recommendation model

Quick win opportunity if even small lift is achieved
